

UNY's Sustainable Purchasing Policy

Policy	:	Rector Regulation No. 16 of 2021 concerning the Green Campus of Universitas Negeri Yogyakarta (UNY)
Brief Description	:	Article 8A paragraph (2)(c) states that “ <i>recommending the procurement of goods related to energy efficiency.</i> ” This provision indicates that UNY has established a policy framework requiring that all procurement activities consider energy efficiency and sustainability aspects. Therefore, procurement processes at UNY are not solely based on functional and economic considerations but also incorporate environmental responsibility, particularly in promoting energy-saving products and sustainable practices.
